Note:

Further kindly note that the RP has obtained a legal opinion regarding the admissibility of interest over the assured return. Based on this opinion, we are now calculating interest on the assured return accordingly, if applicable to you. However, please note that the calculation method resembles that of monthly TDS computation, which is a time-consuming process. Despite this, we are making every effort to complete the calculations at the earliest. We will share an Excel sheet with all the Creditors who are in the list of creditors as on 14.07.2025, that includes the necessary formula. You will simply need to input the principal amount, and the sheet will automatically calculate the interest on the assured return. Except interest on assured return, other components have been verified/re-verified in the COC re-constitution. Interest on assured return shall be calculated and again COC shall be re-constituted in next 15 days wherein interest on assured return shall also be included.
